EDUCATION

B.Tech in Computer Science and Engineering

I.T.S Engineering College - CGPA: 8.80/10

July 2021 - June 2025

Greater Noida, India

EXPERIENCE

Software Developer Intern (Tripo Saints, Greater Noida)

July 2024 - Sept 2024

- Migrated the website to a MERN stack, enhancing user experience and achieving a 40% reduction in load time.
- Enhanced user engagement by 25% through the development of 5+ features using GraphQL and JavaScript.
- Transformed website functionalities, elevating user satisfaction by 30% through strategic enhancements.

TECHNICAL SKILLS

Languages: C/C++, Python, Java, SQL

Technologies: HTML, CSS, JavaScript, TypeScript, NodeJS, ExpressJS, Mongoose, Prisma

Developer Tools: Git, GitHub, VS Code, Atom, Cloudinary, Playwright

Frameworks and Libraries: Tailwind CSS, ReactJS, Redux, Next.js, ShadcnUI

Databases: MongoDB, MySQL, PostgreSQL

Subjects: Operating System, DBMS, Object-Oriented Programming

ACHIEVEMENTS

- Accomplished **1,300+** coding challenges across multiple platforms, showcasing my Data Structure & Algorithm skills.
- Achieved **third position** in the Bareilly district during the 12th examination, demonstrating academic excellence.
- Qualified for the **Amritapuri Regionals, Kerala** in the International Collegiate Programming Contest (ICPC) as part of the team **Binary Brain**, competing against over 7,000 participants in the online qualification round.
- Attained a **top 15** position in **Hackaccino**, hosted by **Bennett University**, demonstrating competitive coding skills.
- Recognized among over 60,000+ contributors for completing multiple pull requests on open-source projects during **Hacktoberfest 2023**, highlighting my dedication to community collaboration and software development.
- Secured a **top 30** position in **HackHound 2.0**, a competitive hackathon organized by **SRM IST Ghaziabad**.

PROJECTS

ContentBuddy  | [LIVE](#) | [Next.js](#), [Tailwind](#), [Prisma](#), [Stripe](#), [OpenAI](#), [Replicate](#), [Gemini](#) | **April 2024 - May 2024**

- Developed a platform for content creators leveraging generative AI models, including Replicate and Gemini.
- Enabled users to generate images, videos, code, and conversations with AI assistance, enhancing productivity by approximately 50%.
- Streamlined the creative process by integrating 3+ AI model APIs, providing a seamless content generation experience for a diverse user base.

Apna Hotel  | [LIVE](#) | [Typescript](#), [React](#), [Express](#), [Node](#), [MongoDb](#), [JWT](#), [Stripe](#) | **February 2024 - March 2024**

- Implemented JWT authentication, achieving a 99% reduction in unauthorized access attempts and significantly enhancing system integrity.
- Integrated Stripe, simplifying transactions and ensuring a 100% secure payment process, resulting in a seamless experience for users.
- Designed a booking management system that allowed users to add, edit, and delete hotel listings, displaying recently added hotels on the homepage, which increased user engagement by approximately 20%.

CERTIFICATIONS

- ICPC Amritapuri Region, Kerala
- Responsive Web Design
- JavaScript Data Structure & Algorithm
